Dear Jim,

Thank you for getting the ammunition on such short notice. I hope the delay in getting the money has not caused you any inconvenience.

We received the property from RO-4 (2 shotguns and an S and W pistol) and would like to know if you sent any tooling associated with the 9mm rounds. It is likely that our people did not deliver the complete shipment to us.

Sam asked us to get originals of the women's hairlines from Herman if any were available. Herman sent the enclosed films and said that these were all he had. I hope they will help Sam.

I have read the RO-4 report and it is excellent. I had almost forgotten some of the pleasantries of testing with horse meat.

Hope to visit you in the near future.

Very truly yours,

smc
